WORK EXPERIENCE

 **XRM STUDIO LLC – DOVER, UNITED STATES**

SPECIAL EFFECTS COORDINATOR – 14/04/2006 – CURRENT

I am responsible for the safe and effective design, coordination, and execution of physical and mechanical effects for film, television, and other media productions. I work closely with directors, producers, and other department heads to bring the creative vision to life while ensuring safety and feasibility.

Key Responsibilities

- **Design and Planning:**
 - Collaborate with directors, producers, and production designers to understand the creative vision and specific requirements for special effects.
 - Develop detailed plans and designs for special effects sequences, including explosions, fire, weather effects, mechanical props, and other physical effects.
 - Create budget estimates and timelines for special effects production.
- **Coordination and Execution:**
 - Oversee the construction and installation of special effects rigs and equipment.
 - Coordinate with the special effects team, including technicians, riggers, and assistants, to ensure effects are executed accurately and safely.
 - Conduct tests and rehearsals to ensure effects perform as expected.
 - Troubleshoot and resolve any issues that arise during production.
- **Safety and Compliance:**
 - Ensure all special effects are executed in compliance with safety regulations and industry standards.
 - Conduct risk assessments and implement safety protocols for the cast, crew, and environment.
 - Liaise with safety officers and insurance representatives to mitigate risks.
- **On-Set Supervision:**
 - Supervise the execution of special effects on set, ensuring they are integrated seamlessly into the filming process.
 - Communicate with the director and camera department to coordinate timing and placement of effects.
- **Post-Production Collaboration:**
 - Work with post-production teams to integrate practical effects with visual effects (VFX) when necessary.
 - Provide feedback and support during the editing and finalization process.

Based out of Bucharest Romania since 2008

 **SC STASO TACTICAL SHOP SRL – BUCURESTI, ROMANIA**

SHOOTING RANGE OFFICER – 13/10/2014 – 26/04/2024

As a Shooting Range Officer, I was responsible for ensuring the safety and security of customers and personnel at the shooting range. This role involves extensive training in weapons and ammunition, organizing shooting sessions, and providing first aid. I also prepare courses and coordinate gatherings with various institutions.

Key Responsibilities

- **Safety and Security:**
 - Oversee the safety and security of all customers and personnel at the shooting range.
 - Enforce all safety protocols and guidelines to prevent accidents and ensure a safe environment.
 - Monitor the range during shooting sessions to ensure compliance with safety regulations.
- **Training and Education:**
 - Provide comprehensive training on the proper handling and use of weapons and ammunition to both customers and personnel.
 - Conduct regular safety briefings and refresher courses for all range users.
 - Stay updated with the latest safety practices and ensure the range's protocols align with industry standards.
- **Organizing Shooting Sessions:**

- Prepare and organize shooting sessions for customers, ensuring all security measures are strictly followed.
- Assign lanes and manage the schedule to ensure an orderly flow of activities at the range.
- Assist customers with equipment setup and provide guidance on shooting techniques.
- **First Aid Training:**
 - Certified to provide first aid at FpOSI BTEC Level 2.
 - Deliver first aid to staff and customers.
- **Course Preparation and Institutional Collaboration:**
 - Develop and prepare educational courses and training programs for various institutions, including law enforcement and security agencies.
 - Coordinate and host gatherings, workshops, and training sessions with external organizations to promote safety and skill development.
 - Build and maintain relationships with different institutions to facilitate ongoing collaboration and training opportunities.

Qualifications and Skills

- **Education and Certification:**
 - Extensive training and certification in weapons handling and ammunition.
 - Certified in first aid at FpOSI BTEC Level 2.
- **Technical Skills:**
 - Proficiency in handling various types of firearms and ammunition.
 - Knowledge of shooting range operations and safety protocols.
 - Ability to conduct thorough safety inspections and risk assessments.
- **Soft Skills:**
 - Strong communication and interpersonal skills to effectively train and interact with customers and personnel.
 - Excellent organizational skills to manage shooting sessions and training schedules.
 - Calm and composed demeanor to handle emergencies and ensure a safe environment.

 **XRM STUDIO LLC** – DOVER, UNITED STATES

SPECIAL EFFECTS TECHNICIAN – 14/04/2005 – 14/04/2006

- I was part of a team in charge with different cinematographic special effects, pyrotechnical effects, mechanical effects, atmospheric effects under the supervision of a Special Effects Coordinator.
- Design, construct, and implement physical and mechanical special effects for film and television productions.
- Collaborate with directors and production teams to achieve desired visual effects.

Duties:

- Build and operate special effects rigs, including pyrotechnics, animatronics, and weather effects.
- Conduct safety checks and risk assessments to ensure all effects comply with industry safety standards.
- Perform on-set adjustments and repairs to effects equipment as needed.
- Coordinate with other departments to integrate effects seamlessly into production.
- Maintain and organize special effects inventory and equipment.

Key Achievements:

- Successfully executed complex effects sequences in multiple high-profile productions, enhancing visual storytelling.
- Developed innovative solutions to achieve unique effects within budget constraints.

Skills

- **Technical Skills:**
 - Proficiency in designing and constructing practical effects (pyrotechnics, mechanical props, atmospheric effects).
 - Expertise in using tools and materials for special effects creation.
 - Knowledge of industry-standard safety protocols and regulations.
 - Ability to troubleshoot and repair special effects equipment on-site.
- **Creative Skills:**
 - Strong problem-solving abilities and creativity in effect design.
 - Ability to translate creative vision into practical, executable effects.
- **Soft Skills:**
 - Excellent communication and teamwork skills.
 - Detail-oriented with a strong sense of timing and coordination.
 - Ability to work under pressure and meet tight deadlines.

Certifications

- OSHA Safety Certification

 **XRM DYNAMICS LLC** – SAN DIEGO, UNITED STATES

As a Mid-Level DBMS (Database Management System) Security Tester I was responsible for performing in-depth security assessments and penetration tests on database systems to identify vulnerabilities and ensure robust security measures are in place. This role involves more complex testing, analysis, and remediation planning and collaborating closely with other IT and security professionals.

Key Responsibilities

- **Security Testing:**
 - Conduct comprehensive security assessments of database management systems
 - Perform advanced penetration testing to uncover security weaknesses and simulate potential attacks.
 - Utilize and customize automated security tools and scripts for detailed scanning and testing of databases.
- **Vulnerability Analysis and Remediation:**
 - Analyze test results to identify vulnerabilities and assess their potential impact on the organization.
 - Develop and implement remediation strategies to address identified security issues.
 - Collaborate with database administrators and developers to ensure security fixes are effectively applied.
- **Monitoring and Incident Response:**
 - Monitor database environments for security incidents and suspicious activities.
 - Investigate and respond to security breaches or incidents, providing detailed analysis and recommendations for mitigation.
 - Maintain up-to-date knowledge of emerging threats and vulnerabilities specific to database systems.
- **Reporting and Documentation:**
 - Prepare comprehensive reports detailing security assessment findings, vulnerabilities, and recommended remediation actions.
 - Document testing methodologies, tools, and scripts used during security assessments.
 - Provide regular updates and reports to senior management and other stakeholders on the security status of database systems.

Problem-Solving Skills:

- Excellent analytical skills to identify, assess, and prioritize security vulnerabilities.
- Ability to develop and implement effective remediation plans.

Soft Skills:

- Strong communication skills to collaborate with team members and present findings to stakeholders.
- Attention to detail and the ability to document technical findings clearly and concisely.

 **XRM DYNAMICS LLC** – SAN DIEGO, UNITED STATES

JUNIOR DBMS SECURITY TESTER - FOXPRO – 21/04/2001 – 14/04/2002

As a Junior DBMS (Database Management System) Security Tester specialized in FoxPro I was responsible for identifying and mitigating security vulnerabilities within FoxPro database systems. This entry-level role involves performing security assessments, running tests, and supporting senior security professionals in safeguarding FoxPro databases.

Key Responsibilities

- **Security Testing:**
 - Conduct security assessments of FoxPro database systems to identify vulnerabilities.
 - Perform penetration testing on FoxPro databases to evaluate security controls and identify weaknesses.
 - Execute automated security tools and scripts to scan FoxPro databases for potential security issues.
- **Vulnerability Analysis:**
 - Analyze and interpret results from security assessments and penetration tests.
 - Document identified vulnerabilities, assess their potential impact, and suggest remediation measures.
 - Assist in prioritizing vulnerabilities based on risk and potential impact on the organization.
- **Monitoring and Reporting:**
 - Monitor FoxPro database environments for security incidents and unusual activities.
 - Prepare detailed reports on security findings and present them to senior security team members.
 - Track and document the status of identified vulnerabilities and remediation efforts.
- **Collaboration and Support:**
 - Work closely with database administrators (DBAs), developers, and senior security professionals to understand FoxPro database configurations and security requirements.
 - Assist in the implementation of security best practices and guidelines for FoxPro database management.
 - Participate in security team meetings and contribute to discussions on improving database security.

Technical Skills:

- Basic understanding of FoxPro and other database management systems.
- Knowledge of common database vulnerabilities, such as SQL injection, privilege escalation, and data leakage.
- Familiarity with security testing tools and frameworks.

Problem-Solving Skills:

- Strong analytical skills to identify and assess security vulnerabilities.
- Ability to troubleshoot and resolve basic security issues under supervision.

Soft Skills:

- Effective communication skills to collaborate with team members and report findings.
- Attention to detail and a meticulous approach to documenting security assessments.
- Eagerness to learn and adapt to new security challenges and technologies.
